Lefima started the beginning of the 21st century with their ultra-light drums, a line of various drum types which set completely new benchmarks in the field of marching percussion.

The use of alternative materials and a unique lug technology made possible a new generation of marching drums with such low weight that this was honored in the Guinnessbook of the Records! Because of the reduced mass attached to the shell, these instruments gain tremendous power that predestines these drums for playing outside. The sensational low weight is combined with modern lug technology. These drums feature a very dynamic articu...
