UNSCHLAGBAR-Spannreifen //
UNBEATABLE Rims

Ministützen aus Leichtmetall //
Mini Lugs from light metal

The drums of this line follow in principle historical models from the first half of the 20th century, however feature some essential and appropriate innovations:

Shell, hoops and lugs are manufactured in proven - LEFIMA-ultralight design and matched to perfection. The rims are made from aircraft aluminum are extremely light and exceedingly robust; to wooden rims they have a significant advantage with regards to durability and distortion resistance. The sturdy material distributes the forces produced by the tension screws more evenly on the whole rim, as is possible with wood...

Design features

Non rusting ultra-light built brushed metal shell, (against surcharge with surface finish optionally in high-quality chrome or polished brass finish) durable powder coated rims made from very light robust aircraft aluminum with zigzag or stripe design, light strainer #ZA-ABH-0467-000, removable ring control, multi carrying bar 8820 (stainless steel), extra padded flexi-leg rest (stainless steel), tuning key

Product Features

Stainless Carrying Ring

If a snare drum is carried with a sling the drum gains hold by an additional stabilisator strap that can be hooked at that serial ...

Mini Lugs in noble chrome or brass finish

The key factor within the design of the lugs was sturdiness and low weight. The use of aircraft aluminium provided both these qual...

Unbeatable Rims

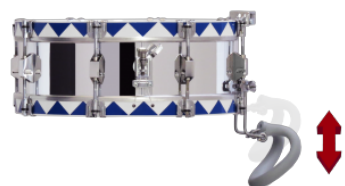

The rims are made from aircraft aluminum are extremely light and exceedingly robust; to wooden rims they have a significant advant...

Ultra-light Metal Shell

The surface of the shell is realized by a high-performance real metal foil, specifically developed for this purpose. It ident...

Equipment

Flexi-leg rest

The Flexi-leg rest is infinitely adjustable in height and so can be adapted according to your individual needs.

Multi-angle Carrying Bar

This carrying bar facilitates traditional as well as matched-gripping playing. A carrying bar is necessary when using a Flexi-Carrier ...

Repositionable Ring Control

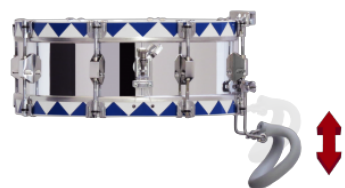

This ring control is the easiest method to dampen overtones. Unlike other ring controls the Lefima ring is adhesive and sticks to ...

Light Mini Strainer

This strainer comes from the design line of our ultra-light drums and is characterized by its extremely low weight.

Accessories

Flexi-leg rest

The Flexi-leg rest is infinitely adjustable in height and so can be adapted according to your individual needs.

Repositionable Ring Control

This ring control is the easiest method to dampen overtones. Unlike other ring controls the Lefima ring is adhesive and sticks to ...

The drums of this line follow in principle historical models from the first half of the 20th century, however feature some essential and appropriate innovations:

Shell, hoops and lugs are manufactured in proven **LEFIMA-ultralight design** and matched to perfection. The rims are made from aircraft aluminum are extremely light and exceedingly robust; to wooden rims they have a significant advantage with regards to durability and distortion resistance. The sturdy material distributes the forces produced by the tension screws more evenly on the whole rim, as is possible with wooden rims. The result is an enormous tonal accuracy! The solution of integrating the multi-carrying bar into the rim is as simple as it is effective: The balance point is shifted towards the player, which reduces lateral swing of the instrument and thus can be worn

very comfortably.

The **Flexi-leg rest** is constructed as a hinge, making the movement of the leg while marching. In this way, the drum can be carried exceptionally comfortable and stable. The wearing comfort is even more increased by a super padded rest which is more than twice as wide as normal leg rests. With the **multi-angle carrying bar** also the angle of the drum can be flexibly adjusted according to your demands.

By itself understood that batter and snare side head can be tuned separately and so contribute to the modern requirements of a marching drum.
